About Us

Gauda Engineering is a prominent name in the Indian dairy industry which is dealing in different kinds of Milk Homogenizers and Homogenizer Spare Parts. The general usage of the Homogenizer is that they are used to prepare reconstituted milk by mixing butter or butter oil with skim milk. Established in the year 2001, our company has achieved expertise in this field and become a trusted manufacturer, supplier and service provider. With the hard work and dedication we have been working for the past many years make us a reliable name in the competitive world. The products we are dealing with include Rich Cream High Pressure Homogenizer, Homogenizer Double Helical Gear, Homogenizer Connectors, Homogenizer Gudgeon Pin, Homogenizer Bearing Cap, etc.

Along with the products, we are providing Repairing and Installation Service of High Pressure Homogenizer. Our solutions are provided with the help of proficient team members who have adequate knowledge & experience in their respective domains. The professionals we have in our team are one of the biggest strengths of the firm who keep coming up with new & innovative ideas of business development. Both the products & services we are providing to the customers are admired for their cost-effectiveness, reliability and great quality.
